## PARKING IS ALWAYS A PROBLEM.

As the 2011 boating season gets into full swing, here are a few items that need to be addressed.

**Parking is a major problem at WIBC.** Only members are allowed to park in the gated area. Please have all your guests park in the train station parking lot. If you see a non-member parking in this area, please take note of the license plate and let the office know. WIBC has hired Alex's Towing to tow unauthorized cars. If anyone is parking outside of the gated parking area, please note the fire lanes and no parking areas. Signs have been erected to caution parkers that their car is subject to tow if it is parked in a no parking area. TAKE WARNING, THIS IS FOR REAL!

**MEMBERS:** It is your responsibility to make sure all your boat lines are secure and strong enough to handle the size of your boat. Please check your boats frequently to make sure that all lines are secure and are in good shape. If you notice that a fellow member's boat lines are loose, tighten them before a problem occurs.

### CLUB SAFETY

**Safety is always important at WIBC.** Please make sure that you always close dock gates. Children should always be accompanied by an adult and wear life jackets when walking on the docks. No one should ever run on the docks. Always be alert in the parking and boat ramp areas. Please be careful, we don't want any accidents.

**Make sure all the safety gear you are required to have is on your boat.** This includes your boat registration, flares, fire extinguishers, life jackets, etc. There will be more impromptu boat inspections on the river this summer and you don't want to get a ticket.
